FOR WATER AND THE ENVIRONMENT
TEXAS STATE UNIVERSITY

TEXAS STREAM TEAM

CARING FOR OUR WATERS

Texas Stream Team is a statewide network of citizen scientists and supportive partners working together to provide education programs, water quality monitoring, community, and collaboration to carry out projects in impaired water bodies. TST is administered through a cooperative partnership between The Meadows Center for Water and the Environment, the Texas Commission on Environmental Quality, and the U.S. Environmental Protection Agency.

What can you do for the future of Texas water?

Join us: As a trained citizen scientist, you will make a difference for our Texas waters.

Partner Up: Our public and private partners trust us – and each other – to share information, resources, expertise, and opportunities.

Fund Us: Every drop counts! To donate, visit us at friends.joinstreamteam.org.
